**FTKH** Premium Inverter Wall Mounted

Gin-IC

# Features

## **Smart Powerful + Operation**

A smart feature that ensures maximum cooling performance delivered by engaging the indoor fan motor to run at maximum speed for 20mins. Utilizing the intelligence of sensor to detect human presence and to direct the airflow towards the detected human presense area for a faster and more efficient cooling.

## Smart++ CLEAN 3 Powerful Air Purification

### 🔘 🛄 🛄 💭 Gin-Ion Blue Filter

This filter is treated with a positively charged silver ion, which efficiently draws viruses onto its surface and decomposes up to 99.9% in 2 hours. On top of that, this filter can deactivate bacteria and inhibit fungal growth on its surface to improve the quality of indoor air for a healthier lifestyle. The filter delivers consistent performance for around a year if filter is cleaned once every 2 weeks.

Substances can be collected and deactivate by filter:

#### PM2.5 Dust Collection Filter

This filter removes PM2.5 particulate matter which is smaller than 2.5 micrometres ( $\mu m$ ). PM2.5 is small enough to be breathed deep into our lungs.

### Streamer Technology

High speed electrons are discharged that enable decomposition and removal allergens such as mould, mites, pollen and hazardous chemical.

A smart feature that ensures maximum energy saving while fulfilling basic human comfort needs. Utilizing the intelligence of sensor to detect human presence in room while adjusting set temperature automatically while limiting the maximum power consumption.

This built-in network adaptor (AWM61A01) and the app turn a smartphone into a remote controller that can be used inside or outside the home. Together, they help to not only save energy and maintain comfort but also eliminate any worries of forgetting to turn off your air conditioner! (*Certain app functions are optional.*)

Newly designed printed circuit board (PCB) for higher voltage surge tolerance. This PCB can easily handle large variations of voltage (130V-415V) therefore ensuring longer life span.

# Anti-Corrosion Treatment of Outdoor

The outdoor unit's heat exchanger fins are processed using a special anti-corrosion treatment. The surface is covered with a thin acrylic resin layer to enhance the fins' resistance to salt corrosion.

**GO DAIKIN** 

# GO DAIKIN

In-Home & Out-Of-Home Function Allows You To Control Your AC At Anywhere Anytime.

• In-home & Out-of-home function allows you to control your AC at anywhere anytime.

 Weekly scheduling allows you to set your AC at your preferred timing at a weekly basis.

#### **GO SAVE**

 Statistical energy usage graphs that allows you to monitor and keep track of your daily energy usage to ensure an efficient AC operation.

With this, greater savings can be achieved as you can now smartly monitor your AC energy consumption!

\* The energy consumption values are based on averaged data; Monetary values is calculated based on domestic tariff A at 21.8sen/kWh.

### **GO COMFORT**

Different operational modes allows you to enjoy the different kinds of cooling experience.

Advance control\* that provides you with even more cooling options for a better cooling comfort.

\* May vary depends on model availability

### **GO SHARE**

User control sharing easily allows you to share your AC controls with your family members through a simple QR code scanning.

You can unbind the controls or restrict certain app functions of the AC from your family members at any time you desire.

#### **Smart Control Subscription:**

Voila! You can

smartphone

now control your AC from your 25

1. Free 2 years upgrade to Smart Control Pro upon first time successful pairing to network adaptor (AWM61A01). Package will switch back to Smart Control Standard (FREE) after 2 years. User can choose to upgrade to Smart Control Pro with subscription of RM 11.99 yearly per air conditioner.

Scan QR code to see GO Daikin setup video

- 2. Geofencing lets your AC automatically turn on when you get home and off
- when you leave. You can easily set and adjust the distance to match your needs.3. Function includes: On/Off, Operation Mode, Fan Swing, Fan Speed, Powerful Mode, Quiet Mode, Sleep Mode.

#### Go Daikin App:

- i. An Internet connection through mobile data or WiFi network is required to use Smart Control function.
- ii. Connectivity of App to AC will depend on the effective coverage area of your Local Area Network (LAN).
- This device supports DHCP (Dynamic Host Configuration Protocol) only. Ensure that your router has DHCP server option function activated before pairing.
- iv. The controllable functions and features may differ depending on the model.

#### **Gin-ION Blue Filter Test Result**

The Gin-ION Blue Filter has been tested and confirmed to decompose viruses, bacteria, and inhibit fungal growth on the filter surface.

Remarks:

1. Due to product innovation, all specifications are subjected to change by the manufacturer without prior notice.
2. All units are being tested and comply to ISO5151.
3. Nominal cooling capacity are based on the conditions: 27°C DB / 19°C WB indoor and 35°C DB outdoor; piping length 7.5m.
4. Sound pressure levels are measured in anechoic chamber according to JIS C 9612 standard. During actual operation, sound pressure level will be higher as a result of room specification condition.
5. The Gin-ION Blue Filter is not a medical device. Benefits shown are only effective for substances which are directly attached on the filter surface.
