

DAIKIN AIRBASE

COMFORT AT YOUR FINGERTIPS

Daikin Airbase¹ puts your system's frequently used functions at your fingertips with an easy to use app.

In conjunction with Daikin's BRP15B61 wireless LAN adaptor, the Airbase app lets you use your smartphone or tablet² to operate your air conditioning unit via your inhome Wi-Fi or remotely with an internet connection.

Up to 10 systems³ can be conveniently monitored and controlled on the app anywhere, anytime.

BRP15B61

COUNTDOWN ON/OFF TIMER

Quick and easy means to set up the operations of your unit.

OPERATION MODE THEMING

Each operation is colour-coded for easy association.

FILTER CLEANING REMINDER

Automatic notification when filter cleaning may be required.

ZONE ON/OFF

Turn on or off the zones in your home (requires Zone Controller)

MULTIPLE ZONE CONTROL

Control up to 8 zones, each zone can be turned on or off depending on your requirements. (Requires Zone Controller)

CUSTOM ZONE NAMES

Customize the name of the zones through your home. (Zone Controller Required)

1. Airbase is compatible with SkyAir systems and VRV ducted models only
2. Only compatible with Android (≥ 5.0) & iOS (≥ 8.0) devices
3. Each ducted system requires a BRP15B61 adaptor and must be connected on the same Wi-Fi network

CONTROL YOUR SYSTEM WITH VOICE

With Daikin Airbase your ducted system can now be part of the Google and Amazon home automation ecosystem alongside 3rd party supplied lights, garage doors, security systems etc.

By linking your Airbase account with Google Home or Amazon Alexa, the Daikin ducted system can be operated directly from their companion app or smart speaker.

Google/Amazon Smart Speaker and Home Automation Ecosystem Purchased Separately

Mode	What is the current mode of the air-con?	✓	✓

THREE WAYS TO CONNECT

- Daikin's Airbase app allows you to operate your ducted air conditioning system from your phone or tablet, via in-home wi-fi or remotely with an internet connection.

Direct Connection

For locations without a Wi-Fi network, the app can wirelessly connect directly to a WLAN adaptor equipped air conditioner, when in range.

Wi-Fi Connection

A WLAN adaptor equipped air conditioner can easily be joined to a local Wi-Fi network. Once connected, the system can be controlled from any networked Android or iOS device.

Internet Connection

Monitor and control your system from virtually anywhere, adjusting temperature and setting for a comfortable environment ready for when you arrive home. With no subscription costs from Daikin, all you need is a permanent internet connection for your Wi-Fi network, and an internet connection for your phone or tablet.

AIRBASE FEATURES

- Note that not all functions may be available for your system.
